

Support elements for machines

Series M-800 STAINLESS STEEL Feet

Properties

- anti-vibration and adjustable feet with screw mounting attached to the cap by thread entirely realized in STAINLESS STEEL and NITRILE RUBBER
- support remains attached to the machine making it easier to shift to restructurings, removals, cleaning
- they isolate more than 80% of emitted or received machinery vibrations, preserving all moving parts (gears, shafts, etc.) and avoiding rapid wear
- the elastic part, constructed in NITRILE RUBBER, has good resistance to oils, fats and solvents

Applications

- support for machinery used in food processing, pharmaceutical, chemical and shipbuilding industry

Code - M2AI....

Material - NBR / Stainless Steel

Hardness - n.d.
